THE TWO-HEADED GIRL. - Many persons have doubted whether the two headed negro girl, being exhibited around the country, is not an artfully contrived humbug. The following, however, from the Philadelphia Press of Wednesday, seems to settle the matter:

At a special clinic recently held at the Jefferson Medical College the girl was submitted to a scientific anatomical examination by Professors Pancoast, Ormsby, Rand and Gross, and Drs. Meigs, W. H. Pancoast, Gardette, Ray, Turnbull, Atkinson, Barson, Bache, Dickson, Dohen, Atlee, Andrews and others.

The girl was introduced by Dr. William H. Pancoast, demonstrator of anatomy at the college, and a general feeling of astonishment was felt when it was discovered that instead of a monstrosity there was exhibited a well educated, intelligent, quick-witted girl, with nothing about her that was repulsive or calculated to offend the most fastidious. Dr. Pancoast stated that the body had been placed under his professional care, and owing to the important questions involved a private examination had been made by Professors Pancoast and Grozs, and Drs. Sevie and Andrews, which had verified all the opinions expressed as to her perfect duality.

It was then stated that this remarkable freak of nature was united at the lateral posterior portion of the pelvis, while above that point they were separated—had separate chests, two pairs of fully developed arms, but only one trunk. With the double head, they possessed separate intellectual faculties as entirely distinct as was the brain power of two different individuals, while their faces indicated, to a remarkable degree, intelligence of a high order and amiability. The lower portions of the body inclined outwards from each side, and the lower limbs were inferior and not so fully developed as the arms.

A series of experiments were then made under the direction of Professor Pancoast and Drs. Atlee, Mauray and others, calculated to demonstrate the construction of the nervous system, and which showed that while above the junction, the sense of feeling was separate and distinct in each, below the union it was in common. A touch upon the foot of one would be instantly detected by the other, while a hand placed upon either shoulder was only noticed by the one touched. The pulse of the feebler of the two was found to be about four beats slower than that of the other, while the beat of the two hearts was nearly the same.

"OUR GIRLS," AS SEEN THROUGH A BOY'S SPECTACLES. -For frankness, mairete and conciseness, says the St. Louis Times, commend us to the boy of the period. The following letter was written recently to a school teacher by a youthful scion of one of St. Louis's first families, and now finds its way into print by ways that are dark. It is given verbatim and complete with the exception of the signature and date:

Dear Teacher. - As this is my first letter to you I do not know exactly what to say to you but to begin with I would like to tell you how sorry I am for acting so bad Tuesday I will try and not do easy more A big boy told me I ought to be glad to sit by the girls but I ant a tall I don't like girls they don't seem to know much they can't make bean shooters and play like boys can and they always cry if you hurt em a little. I think girls are muffs thats what my big brother says and he knows so thear Teacher I would rather you would lick me than set me by the gals I will now say Good by as I have nothing more to say at presence.

THE MODERN SNEAK. - For the bore, the sucker or the beat, we have a patience that mingles itself with christian charity and can easily deliver ourselves from them, but for the modern sucak, whose characteristics are darker, more dangerous and less liable to detection and exposure, we have an innate contempt that no power of language can convey. The modern sneak differs from his ancient prototype.-The latter was accustomed to skulk away from men and to bury the meanness of his nature in his own self-contempt, whereas the former pushes his brazen front in ranks of society and dares by insidious whisperings to descerate the character of those he has not the manliness to confront. The most exalted are the objects of his peculiar envy, and he loses no secret apportunity to degrade the merit he does not possess himself Reader, if you have such one in the circle of your acquaintance, an consign him to the contempt he deserves Fredericks

CLEAR & HARMLESS AS WATER. NATTAN'S CRYSTAL DISCOVERY

The following letters speak for themselves: Washington, Nov. 4, 1870. Mr. Arthur Nattans: Dear Sir-After a very thorough and impartial trial of your Crystal Discovery for a month, I feel compelled to acknowledge its very great superiority over any other article now in use for the purpose designed -the speedy restoration of the color and growth of the hair, and no one using it according to di-

rections can fail, I am convinced, to attain this much desired result to perfection. The simplicity of the preparation and its entire cleanliness affords a new opportunity to the vast numbers utterly disgusted with the poisonous nostrums in use. Having a large number of my personal acquaintances who use your preparation with equal success, I cordially recommend Crystal Discov-ery to all persons desiring to use anything of this kind. Very respectfully, P. Doyle, 701 I street, N. W.

Washington, D. C., July 25, 1870.

Mr. Arthur Nattana: Dear Sir—It affords me pleasure to say that I have used your Crystal Discovery with perfect success. Having tried many others, I find yours superior to any I have heretofore used, and I cannot too highly recommend it as a rapid promoter of the growth of the hair, and by a few applications restoring it to its original color. It is perfectly clean and free from any objectionable matter.

Very respectfully yours, R. W. Silvoy,

Very respectfully yours, R. W. Silvoy, K st., bet. 4th and 5th, N. W.

Alexandria, Va., Sept. 10, 1870 Mr. Arthur Nattans: Sir-I have great pleasar. Arthur Natians: Sir-I have great pleasure in testifying to the excellence of your Crystal Discovery for the Hair. My back hair is remarkably long and thick, and became prematurely gray, (this being hereditary.) In eight days it resumed its natural color, chestnut-brown, coloring every hair. I like your preparation for its purity pleasant odor, and freeders from all its purity, pleasant odor, and freedom from all mineral and poisonous substances, as well as its other excellencies. I will recommend it to my acquaintances. Very respectfully, Miss Leave

MARRIAGE. Reflect that a sound mind and body are the most necessary requisites to promote connubial happiness, Indeed, without these the journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view, the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another is blighted with our own.

DISEASE OF IMPRUDENCE.

When the misguided and imprudent votary of deasure finds that he has imbibed the seeds of this painful disease, it too often happens that an ill-time sense of shame or dread of discovery de-ters him from applying to those who, from educa-tion and respectability, can alone befriend him, delaying till the constitutional symptoms of this horrid disease makes their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains in the head and limbs, dimness of sight, deafness, nodes on the shin bones and arms, blotches on the head, face and extremities, progressing with frightful rapidity, till at last the palate of the mouth or the bones of the nose fall in, and the victim of this awful disease becomes a horrid object of commisseration till death puts a period to his dreadful suffering, by sending him to that undiscovered country "from

sending him to that undiscovered country "from whence no traveller returns."

It is a melancholy fact that thousands DIE victims to this terrible disease, through falling into the hands of ignorant or unskilful PRE-TENDERS, who, by the use of that deadly Poison, Mercury, &c., destroy the consitution, and incapable of curing, keep the unhappy sufferer month after month taking their noxious or injurious commontals, and instead of being re-

encies. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the natural powers are lost sooner by those fall-ing into improper habits than by the prudent? Besides being deprived of the pleasure of healthy offspring, the most serious and destructive symp-toms of both body and mind arise. The system becomes deranged, the Physical and Mental Functions weakened. Loss of Procreative Power,
